## WHY WEDDINGS?

Face Skin & Body Bar has worked with many brides and grooms over the years and understands how crucial skin preparation can be in boosting their confidence and allowing them to focus on what truly matters on their wedding day.

Our experience has taught us that each client is unique, with different goals, conditions, budgets, and time constraints. That's why we offer distinctive and personalized treatment packages that are fully customizable based on individual needs, including payment plans for packages over \$750.

Following are three examples of pre-wedding treatment packages that we are able to offer. Each package is tailored to address main areas of concern as well as the amount of time available for prep before the big day.

# The All In

*(8 to 12 Months of Preparation Time)*

This treatment package is for the client who is fully committed to achieving the best skin of their life before their wedding and has ample time to do so. They are looking for comprehensive facial rejuvenation that includes skin tightening, contouring of the jawline, and a radiant, glowing complexion. To achieve these goals, we recommend starting a personalized treatment plan 8-12 months prior to your wedding day.

This plan may involve a combination of advanced procedures, such as a series of Evoke for facial remodelling, a series of Morpheus8 for lifting & tightening, and a full AlumierMD skincare kit for optimal results. We will also include a luxurious 75-minute targeted facial one week before the wedding, which can be enhanced with dermaplaning to deliver the perfect canvas for wedding day make-up.

Our pricing for this type of comprehensive package ranges from \$2,500 to \$4,000, depending on the specific treatments and products included.

## EXAMPLE TREATMENT PLAN

- **Dermaplaning Facial** - to be completed one week before the wedding

# The Renewed

*(3 to 6 Months of Preparation Time)*

This treatment package is for the client eager to achieve clear and radiant skin on their big day, with few skin laxity concerns. To help this client achieve their desired results, we recommend a 12 to 24 week personalized treatment plan.

Treatments can include exfoliating medical grade chemical peels, hydrating facials, some neurotoxin or lip filler and advanced microneedling therapies. Additionally, we will provide an at-home skincare regimen with high-quality medical grade products to complement the in-clinic treatments and maximize the client's results.

Our pricing for this package would range from \$750 to \$1,500, depending on the specific treatments and products included.
